Schools in Action: Education for Sustainable Development (ESD)

- **Description:** The course aims to equip the educators with the tools and knowledge on how to incorporate sustainable development in education. Making the shift in education towards valuing sustainability is essential in terms of raising generations that will take actions and be the driving force for environmental integrity, economic viability with the respect to cultural diversity. The course will enable learners to address present and future global challenges constructively and creatively and to create more sustainable and resilient communities.
- **Location:** Limassol, Cyprus
- **Date:** 10.–14.03.2025
- **Provider:** Dorea Educational Institute

Artificial Intelligence Tools for Language Teachers

- Description: Are you struggling to choose the right AI tool for effective use in the classroom, without spending countless hours signing up, and registering, only to realize they don't meet your needs? This course has been developed to equip language teachers with the knowledge to effectively integrate AI tools into their everyday work. It will enable them to choose and utilize AI tools that streamline administrative tasks, allowing for more time to make their lesson ideas come true. Furthermore, participants will learn how to utilize AI tools to enhance students' language skills, foster creativity, and develop critical thinking competencies. Throughout the course, participants will learn how to provide clear prompts to AI tools to develop curriculums, lesson plans, and exams together with formative and summative assessment documents.
- AI tools can be used to develop original and differentiated materials, which will help teachers personalize their teaching and give students the support to realize their full potential regardless of their language level. By the end of the course, participants will have taken part in engaging and practical tasks and activities that will allow them to understand fully the benefits of AI for both teachers and students. This will empower them to bring their own ideas to life according to their individual working environment.
- Locations: Florența, Italia / Praga, Cehia
- Data: 17-22.03.2025
- Provider: **Europass Teacher Academy**

English language course for School Teachers

- **Description:** A dynamic and fun English language course with innovative teaching techniques to improve vocabulary, grammar, listening and speaking with other teachers in Erasmus+ programme.
- Many teachers see their low English language level as an obstacle to their Erasmus+ mobility. This course is designed to help educators and other school staff get rid of their fear of speaking, improve their English language level and be ready to participate fully in the international environment.
- We will guide you through a series of game-based activities to introduce grammar structures and important vocabulary. The course aims to fully engage participants with digital tools, quizzes, and creative, fun outdoor activities.
- This course is designed to motivate participants to discuss interesting topics, learn about other school teachers and educators from all over Europe, and make new friends, improving their speaking and listening skills along the way.
- One of the best ways to learn English language is to interact with native speakers. This is why participants will have lessons with trainers who are native speakers of English.
- The participants will improve their English language skills, learn about the beauty and culture of Croatia with other teachers and school staff. Participants will have a chance to interact with participants of other courses, network and create opportunities to develop international cooperation and projects.
- Erasmus+ English language teacher training course was designed to boost participants' speaking skills to make international communication among schools easier.
- **Location:** Split, Croatia
- **Date:** 01-07.06.2025
- **Provider:** Platform 21

Effective Workplace Communication and Soft Skills Mastery - Vienna

EESTEAM - Early Education STEAM - Pedagogical Innovations for STEM, STEAM, STREAM, and Differentiated Learning

- **Description:**
- **Ignite a Passion for Learning: EESTEAM in Early Education**
- **Equip yourself to nurture the next generation of innovators!** The EESTEAM course empowers early childhood educators with a treasure trove of pedagogical innovations designed to bring STEM (Science, Technology, Engineering, Math), STEAM (Arts integrated), and STREAM (Reading integrated) subjects to life in your classroom.
- **Cultivate a Thriving Learning Environment:**
- **Harness the Power of Play:** Explore playful learning strategies that spark curiosity, ignite creativity, and make learning a joyful experience for young minds.
- **Embrace Differentiation:** Discover effective methods to cater to diverse learning styles and ensure all students are challenged and supported within the EESTEAM framework.
- **Navigate STEM, STEAM, & STREAM:** Gain a solid understanding of each approach and delve into practical strategies for integrating them seamlessly into your early childhood curriculum.
- **A World of Possibilities:**
- **Go Beyond the Textbook:** Explore innovative teaching methods that encourage exploration, problem-solving, and critical thinking skills through engaging hands-on activities.
- **Foster a Love for Lifelong Learning:** Learn how to nurture a growth mindset in your students, fostering a love for learning that extends far beyond the classroom.
- **This course is designed for:**
- Early childhood educators (preschool, kindergarten, lower elementary)
- Curriculum developers passionate about early STEM education
- Educators seeking to integrate creative approaches into their teaching
- **No prior experience with STEM education is required!** Through interactive workshops, playful activities, and real-world scenarios, you'll gain the confidence and skills to:
- Design engaging and age-appropriate STEM/STEAM/STREAM learning experiences.
- Differentiate your instruction to cater to the needs of all your young learners.
- Foster a love for exploration, discovery, and lifelong learning in your students.
- **Join the EESTEAM movement and watch your students blossom!**
- **Location:** Athens, Greece
- **Date:** 05-09.05.2024
- **Provider:** Interactive Technologies for STEM Art and Education (ITSART)
